

About Us

Cripps Harries Hall LLP is a leading law firm based in the South East providing a wide range of legal services. We advise many high-profile clients including plcs, financial institutions, private companies, local and national government, charities and individuals.

Our simple and effective strategy of concentrating resources in a single regional centre of excellence enables us to provide the maximum benefit to our clients. A high-quality service in terms of breadth and depth is ensured by a long-term commitment to recruitment and we consistently attract high-profile solicitors from leading City firms. The firm was one of the first to secure accreditation to the Law Society's quality assurance standard, Lexcel. With our Tunbridge Wells headquarters just 45 minutes from London, the firm's low overheads allow us to provide this quality service at outstanding value for money. Investing heavily in IT enables us to maximise the efficiency and speed of communications. Clients benefit from innovative services and information delivered via a secure extranet. We have also established an excellent reputation for our imaginative and commercial approach to providing solutions for clients, as exemplified by our involvement with Lovells in the ground-breaking Mexican Wave project for Prudential Property Investment Managers.

We have recently restructured into client-focused, industry sector groups to promote a strong ethos of client service and ensure that our solicitors are not only excellent legal practitioners but also experts in specialist business sectors.

The nationally acclaimed real estate practice is now organised into three groups, each providing specialist advice: the commercial property owners and occupiers group focuses on the needs of clients with property portfolios; the property development and investment group advises on all aspects of development and regeneration projects; and the public sector group provides an expert service to our high-profile national and local government clients.

The corporates group regularly advises on mergers, acquisitions and disposals, corporate finance and commercial contracts. Teams specialise in the technology, hotels and leisure, and transport sectors and in advising French corporate clients.

"first class client care"

Legal 500

The firm is also highly rated for its commercial dispute resolution expertise; for its advice to partnerships and professional practices; and for employment work. We have also built on our strengths in both commercial and private client work to create a charities group, incorporating expertise from across the practice, to assist charities and not-for-profit organisations.

The private client group is one of the most pre-eminent in the country. It has a particular expertise in providing advice on tax and trusts to high net worth individuals. Specialist teams act for executors and trustees, residential and agricultural property owners, and also handle a wider range of contentious private client work, including family law, trust and estate disputes, professional negligence and personal injury claims.
